SA-CSP-02 Computer Systems Programmer, Senior

Duties:

Create and/or maintain operating systems, communications software, database packages, compilers, repositories, and utility and assembler programs. Modify existing software and develop special-purpose software to ensure efficiency and integrity between systems and applications.

Education:

A Bachelor's Degree from an accredited college or university with a major in Computer Science, Information Systems, Engineering, Business, or other related scientific or technical discipline. A Master's Degree is preferred.

General Experience:

Must have twelve (12) years of computer experience in information systems design.

Specialized Experience:

At least ten (10) years of experience in IT systems analysis and programming.
